

Recent Advances in Spine Surgery

An aerial photograph of a large resort pool complex. The pool is a large, irregular shape with a central section and several smaller sections. It is surrounded by a paved deck with many lounge chairs and large umbrellas. In the background, there are palm trees and a building with a thatched roof. The Red Sea is visible in the distance.

**NEUROSPINE GROUP
The First Annual Meeting**

Recent Advances in Spine Surgery

Dear college

On behalf of the ESNS and the **NeuroSpine Group {NSG}** we announce the first annual meeting of the group. It will be held at July 5 – 7, 2006, by the Red sea, Al-Ein Al-Sokhna, Palmera resort. You will enjoy the lovely place, the fabulous clear water for diving and snorkeling, and the generous hospitality.

As the first international meeting you will enjoy the company of a selected expertise in their subspecialty. We will all have comprehensive tutorial presentations, free papers, Video Session, and hands on workshops.

The administrators will have the pleasure to receive abstract electronically via E-mails. Certificate of attendance and Credit Hours will be provided.

We hope that every body will have a useful and pleasant time, and will be happy to hear from you soon.
